

About MACSQuant Tyto:

The revolution in cell sorting has begun

Discover a new approach to cell sorting with the MACSQuant Tyto, an innovative closed, cartridge-based microfluidic cell sorter designed to deliver high-purity cell isolation while preserving cell viability and function.

ADVISAINS

Intro to MACSQuant Tyto:

A Gentle Multiparameter Microfluidic Cell Sorter

SPEAKER:

Yilong Lian, PhD

Field Application Specialist
Miltyenyl Biotec

WEBINAR OVERVIEW:

In this webinar, you'll gain an introduction to the technology behind the MACSQuant Tyto, explore its key applications, and learn how gentle cell sorting can improve downstream experimental outcomes and reproducibility.

Whether you're new to cell sorting or looking for a safer and more efficient alternative, this session will provide valuable insights into modern microfluidic cell sorting.
